# REED Model R2000
## Digital Stem Thermometer

### Features

- °F to °C switchable
- Battery Included (LR44, 1.5V)
- Water resistant
- Five year warranty
- Hand wash only

### Specifications

- Temperature Range: -40 to 450°F (-40 to 230°C)
- Resolution: 0.1°F/°C
- Response Time: 8 seconds, with 2-second updates
- Accuracy: ±1.0°F: 0 to 230°F; ±3.6°F: <0°F & >230°F

### Calibration

Once ice slurry is complete, if necessary, to change the calibration use a screwdriver, slowly turn the calibration screw (cal.) to the left to decrease the temperature reading or to the right to increase the temperature reading, until the display reads 32°F / 0°C.

### Replacing the battery

Use the same screwdriver to pry battery compartment door loose.
